Lone Wolf Distributors Match Grade Replacement Barrels

Manufactured from the highest grade mill select 416 stainless forgings. CNC machined and heat treated, providing a life time of service and unparalleled accuracy at an affordable price. The standard groove and land rifling make this an excellent choice for those who wish to shoot lead, plated or jacketed bullets. Can be used in factory ported or stock pistols.

Special features include:

- Ready to use, pre-fit drop in
- No gunsmithing required
- Precision machined from heat treated 416R stainless forgings
- Oversized lock-up area produces greater shot-to-shot accuracy
- Tighter dimensions than the original
- Polished feed ramp and bore, diamond turned exterior Maximum chamber support, improved feed ramp design
- Match grade broach cut rifling and target crown
- Lifetime warranty

Lone Wolf Distributors will replace any of our barrels or barrel accessories which are found to have manufacturing or material defects. Customer modifications or the use of reloaded ammunition will void this warranty.

Lone Wolf threaded barrels are approved and endorsed by suppressor manufactures Gemtech (www.gem-tech.com) and Advanced Armament Corp. (www.advanced-armament.com)

* Lone Wolf Distributors offers several conversion barrels. 40 S&W converted to 9mm and 357 Sig. 10mm converted to 40 S&W, 357 Sig and 9x25 Dillon. 45 ACP to 10mm and 400 CorBon.

* Our 9mm conversion barrels will allow you to shoot 9mm ammunition from your Glock 40 S&W or 357 Sig handgun. These conversion barrels are easy to use and install the same as any other barrel, simply drop it in, no gunsmithing or other modifications are required. We do recommend you use the correct 9mm magazine with these conversion barrels to guarantee reliable feeding.

Lone Wolf Ultimate Armorer's Tool

This handy little lifesaver was designed specifically for Glock Pistols, our tool is all you will ever need to completely disassemble your Glock pistol. Clips right in your shirt pocket and is actually 4 tools rolled into one. 3/32 pin punch for removing all Glock pins. Small flat head screwdriver for connector removal. 3/16 nut driver for installation and removal of aftermarket front sights. Small nylon parts brush for easy clean up.

LWD-AT1... \$19.95

*Lone Wolf
Compensator*

The Lone Wolf compensator offers a unique advantage to the discriminating competitive shooter. This exceptional performance is accomplished in 2 simultaneous steps. First, the redirection of gas to a 30 degree rearward angle actually pulls the barrel forward, reducing felt recoil. Second, the redirection of gas vertically provides a genuine reduction in muzzle rise. The result allows the shooters sights to remain on target or realigned quickly providing faster accurate follow up shots. Lone Wolf Distributors provides a quality engineered light weight system that delivers maximum performance at 1/2 the cost of similar compensators. We highly recommend the use of LWD stainless guide rod and ISMI reduced power recoil springs with this product. Light loads or reduced power ammunition may not run reliably.

Based on decades of experience with Glock pistols and feedback from thousands of shooters, Lone Wolf Distributors proudly presents the first of the Wolf Pack Series of custom replacement Glock polymer frames. Rather than "tweaking" the factory Glock frame, Lone Wolf R&D began with the human hand, designing Wolf Pack frames for maximum ergonomic efficiency, speed and certainty in handling, and enhancement of instinctive pointing characteristics. Whether employed as a replacement frame for an existing Glock pistol, or used as a superb chassis for building a totally custom pistol from Lone Wolf Distributors' quality parts and accessories, this frame creates a vastly improved mating between the shooter and handgun.

Feather-light and tank-tough, it offers the smallest grip circumference possible – not just for small hands but for all hands – sculpted to encourage a fast, high grip, with an extended beavertail to eliminate "slide bite." The round, improved magazine release speeds ejection, while the flared and beveled mag well aids rapid reloads. Two interchangeable back straps offer either a flatter 1911-style grip or a palm

swell, and refined finger grooves allow subtle adjustment of grip alignment. Posi-trac checkering grip alignment front and rear make for a solid grasp under wet conditions and rapid-fire recoil. The rounded trigger guard smoothes re-holstering. Finally, a protected slide stop prevents accidental engagement, and the multi-spec rail system allows mounting of either Picatinny or Weaver accessories.

Refined, rugged, and ready for the most imaginative and demanding shooters, the Wolf Pack series matches up with Glock models 17, 17L, 22, 24, 31, 34 and 35. Contact Lone Wolf today – and let your imagination run wolf-wild!

Lone Wolf Ultimate Trigger Stop

Our Ultimate Trigger Stop gives you a competitive edge by completely eliminating trigger over travel resulting in smoother trigger reset, faster doubles, faster splits, and an overall premium trigger performance. Includes a new style trigger housing with ejector, polished trigger stop, and Allen Wrench for adjustments. Simply drop it in, replacing your current trigger housing, no other gunsmithing is required. Available for all Glock pistols. Recommended for plinking, target or competition use only.

LoneWolf Guide Rod Assembly

Experienced shooters realize plastic guide rods can chip, crack or break resulting in feeding or ejection failures and guide rod flex is a major contributor to accuracy problems. The Lone Wolf Guide Rod Assembly addresses all of these issues and will provide you a life time of reliable service.

LWD S/S Guide Rod Assembly is a complete drop in unit. Special features include a solid one piece stainless steel guide rod precision CNC machined to accept a removable 3/32 Allen head tip. The ISMI recoil spring is manufactured of certified materials then heat treated for longer life, shot peened for stress relief and finally calibrated to Glock factory specifications. These combined features make the Lone Wolf Guide Rod Assembly the most durable, longest lasting system available today.

LWD-1981 \$2.49

Extended Magazine Catch

Lone Wolf Round Magazine Catch

The Lone Wolf Round Magazine Release (polymer) extends rearward into the grip of your Glock frame assuring instant magazine ejection without repositioning your hand when depressing the button. The results are faster easier magazine changes giving you a definite edge for both competition and defensive situations and quicker more accurate follow up shots because you don't change your shooting grip.

Benefits Include:

- The fastest magazine changes possible.
- Change magazines without changing your shooting grip.
- Perfect addition for small hand or short finger shooters.
- Comfortable magazine ejection for left hand shooters or weak hand drills.
- Will not cause inadvertent magazine drops.

Round Magazine Catch

Prices quoted are for the magazine release only, installation is not included. Use the Lone Wolf Magazine Release Cutting Tool for installation or send us your frame and \$30.00 (includes return shipping). Installation on additional Glock models for only \$20.00 each. Same day turn around for all magazine release modifications!

Use the following part numbers for the polymer Lone Wolf Round Magazine Release:

Ejects Instantly

SAF-T-BLOK

SAF-T-BLOK slides behind the trigger, snaps in easily and stays firmly in place thus preventing accidental discharge. Saf-T-Block is quickly ejected by the trigger finger. Independent tests by Performance Shooting, Inc. showed that no additional time was added to draw and fire the weapon with this safety accessory in place. Highly recommended for unconventional carry. When carrying in a fanny pack or tucked in the belt the BLOK protects the trigger from an accidental discharge. When installed, the BLOK goes unnoticed and can prevent your own gun from being used against you during a gun snatch. **Check our Website for details or call.....\$19.95**

Lone Wolf Plugs

Designed to close the open cavity at the bottom of the grip, preventing debris from entering and reaching the trigger assembly and firing pin. Eliminates possible snagging from open cavity. Used worldwide. Fit may vary between Glock models.

Lone Wolf Distributors introduces SIDERLOCK®

The new security trigger for use with all Glock pistols. This unique cross bolt security trigger replaces the original Glock trigger providing an infallible stop to any rearward trigger movement. SIDERLOCK® works under a simple concept: Quick, positive deployment of a cross bolt safety pin that allows simple and fast displacement in either direction. Pushing the safety on restricts rearward trigger movement. Push the safety off the trigger works as intended. Easily installed or removed, works for left or right hand use. Provides additional assurance avoiding any accidental discharge. Lifetime guarantee on materials and workmanship.

Mech-Tech Carbine Conversion Unit (CCU)

Now here is something really new, not just a repainted 'me-too' product! The Mech-Tech System Carbine Conversion Unit (CCU) adds increased versatility to an already great pistol—the Glock. This product is not a firearm. The CCU converts your Glock pistol into a fast shooting, quick handling, accurate short rifle which shoots the same ammo as the pistol at about 40% more muzzle energy, and operates in semi auto mode. Installs in seconds and is just as easy to remove. (This item ships Fed Ex Ground track only, cost is \$16.50)

*The Mech-Tech CCU also allows you to juggle calibers between certain frame sizes, call for more information

Starts at \$329.95

The Complete Glock Reference Guide by Ptooma Productions

Reviewed by John Connor

"This is the most simultaneously informative and entertaining weapons manual I've ever read, and believe me, I've suffered through a flock of 'em. Everything from the simple "user-language" to the eyeball-angle photo format in the technical sections to the hilarious torture tests is geared perfectly for us – the basic tool-using

shaved apes who like things that go boom. And, there ain't nothing that JR and the Pack at Lone Wolf don't know about The Black Guns. Here's a CAT-scan slice of how I feel about The Complete Glock Reference Guide, dudes: First, I give copies to my friends as gifts. Second, I've taken my personal copy on my last half-dozen road trips. Are we clear now? Questions? Thank you. *Kwaheri!*"

Mako Tactical Scope Mount

The Mako Tactical Scope Mount is the first polymer mounting system for the Glock series pistol. This lightweight design is easy to install and allows the use of factory sights. Just add other Mako accessories or other aftermarket accessories to "Make Your Stock Glock Rock". For use with FGR Glock models only. **MAK-GIS..... \$39.95**

Mako Charging Handle

Easily installed and is the perfect companion for use with all scope mounted sight systems or rifle stocks. Quickly converts for both right and left-handed shooters. **MAK-FCH \$59.95**

IGB 16 Inch Barrels

IGB Austria offers the first ever 16" carbine conversion barrel for Glock handguns. Easy to install or remove, simply slides right into your top end. Patented impulse recoil system adjusts quickly and insures reliable cycling. Shooters will instantly notice an increase in velocity, muzzle control and long range accuracy beyond 100 yards. **\$249.95 each**
